THE COMFORT PROFESSIONALS

Sales • Services • Installations

January 16, 2004
Commissioners of the CPUC

Dear Commissioners;

Mediterranean Heating & Air conditioning has been using the Check Me system for charging Air Conditioning systems for over 4 years now. We have found this method to be the most effective way to analyze a system for proper operation and system efficiency. At least 75 % of the units we have serviced were in dyer need of a tune up and appeared to have not been serviced for a long time. The Check Me program allowed us to bring up the efficiency of the unit quit considerably and was very helpful in showing the building owner or manager how a tune up can help lower their utility bills.

We would like to thank you in advance for your consideration in keeping the Check Me program on going for years to come. Even tough this program is not a big money maker for Mediterranean; we take pride in doing our part for energy conservation.

Sincerely,

Mark Hutchins
Service Manager
